About Us

Smart Group is Cairo based Company and dedicated to serve our customers all over the MEA region With regional office in Cairo.

Smart Group is established through successful synergetic cooperation between expert engineers.

Smart is going on for last 10 years from 2007.

Our Message

The curve of potential and urge for producing a highly qualified effort is never stabilized, but always rushing to the tip of a steep curve.

Through dedicated efforts, dynamic team and our advanced methodologies we had been able to raise Smart Group providing solutions and services in different business segments, successfully introduced into MEA markets and been able to reach the peak of their performance attaining customer satisfaction and corporate expected bottom lines.

Workplace efficiencies ensure an ideal environment for productivity and innovation.

We will always make sure to deliver quality assurance and ultimate client convenience.

Services

Smart Group, installs, integrates and maintains the systems that keep efficient from Fire and Gas to the life safety equipment, that help mitigate risk and management solutions.

Mission

Provide top international innovative technological and management solutions that impact region, and customer strategic growth.

Our company values the significance of business integrity innovation, quality, professionalism.

Values

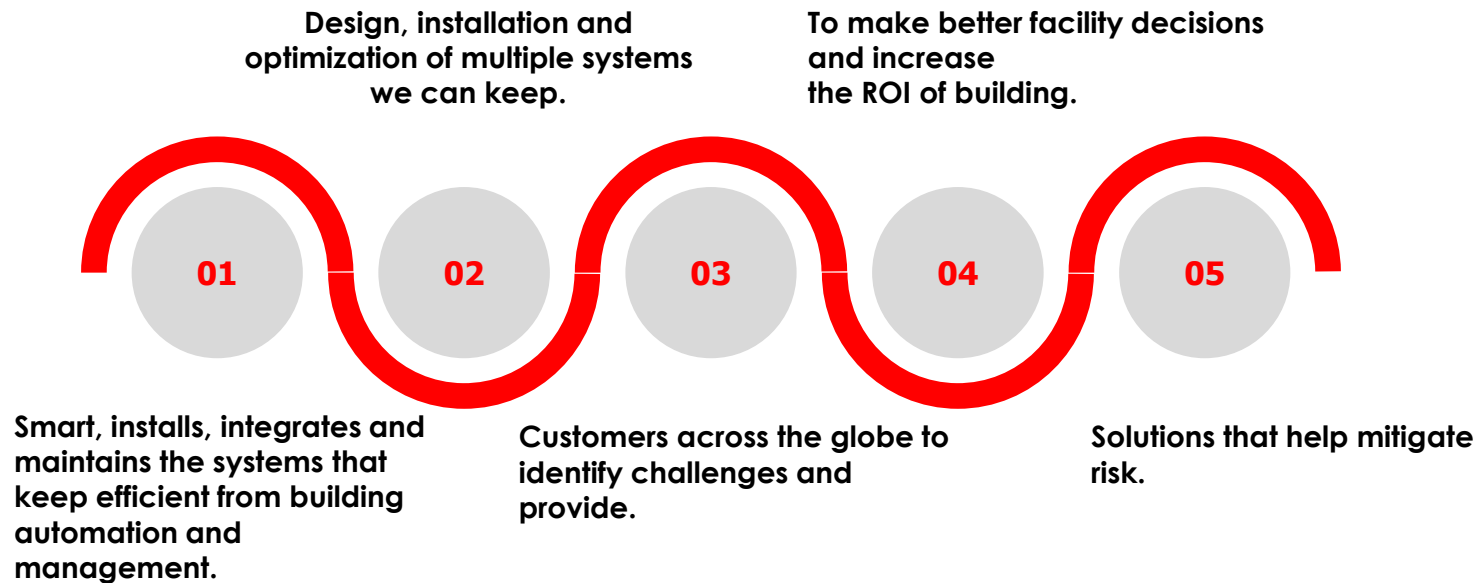

We have developed a business culture based on four fundamentals:

- Integrity.
- Innovation.
- Team Work.
- Customer Satisfaction.

Vision

World class solutions for buildings sustainability.

Company Services

Fit Out Management

Our analysis and guidelines make sure tenants get the maximums of the core and shell facilities without compromising the owner's benefits and standards and smooth this advanced service help new tenants start up their design based on an accurate assessment of their space and their share Gn-Build services using of the MEP core& shell services needs.

Smart Group Intl. facility management consultants revise the new tenant's design and confirm its compliance with the fit-out guidelines and existing core shell systems capacities and standards.

Design Built Solutions

We design the optimum solution to hook up your new systems over the existing full package of MEP(Mechanical, Electrical, and Power) infrastructure guaranteeing excellent operation and smooth maintenance.

Smart Group International - TFM team executes Design-Build Services using economic and accurate methodologies which satisfy tenant needs while eliminating any liability to affect existing building our analysis and guidelines make sure tenants get the maximum of the core and shell facilities without compromising the owner's benefit and standards.

Fire Alarm System

When you're using an advanced fire safety solution that is reliable, flexible and survivable, peace of mind is the greatest benefit.

Protect your people and property with our market-leading systems.

They can be tailored for a wide range of buildings, applications and markets, and our technology and comprehensive maintenance can make your job easier by improving costs and saving time.
