## ABOUT US

**SMART GROUP** is Cairo based company and dedicated to serve our customers all over the MEA region with regional office in Cairo.

**SMART GROUP** is established through successful synergetic cooperation between expert engineers.

Smart is going on for last 10 years from 2007.

## OUR MESSAGE

The curve of potential and urge for producing a highly qualified effort is never stabilized, but always rushing to the tip of a steep curve.

Through dedicated efforts, dynamic team and our advanced methodologies we had been able to raise Smart Group providing solutions and services in different business segments, successfully introduced into MEA markets and been able to reach the peak of their performance attaining customer satisfaction and corporate expected bottom lines.

Workplace efficiencies ensure an ideal Environment for productivity and innovation.

We will always make sure to deliver quality assurance and ultimate client convenience.

## VISION

World-class solutions for buildings and sustainability, aiming to be leaders in alarm and safety solutions, contributing to the creation of a secure and reliable environment.

## MISSION

We provide to international innovative technological and management solutions that impact the region and customer strategic growth. Our company values business integrity, innovation, quality, and professionalism, and we were committed to providing our customers with the best alarm and safety solutions through quality, innovation, and excellent services.

## SERVICES

**Smart Group** excels in installing, integrating, and maintaining critical systems essential for efficiency and safety. From advanced fire and gas detection systems to cutting-edge life safety equipment, our solutions are meticulously designed to mitigate operational risks and optimize management strategies. With a commitment to innovation, we harness state-of-the-art technologies to deliver bespoke safety solutions tailored precisely to our clients' requirements. Our experienced team ensures not only optimal system performance but also peace of mind through comprehensive service and support.

## VALUS

**Smart Group** installs, integrates, and maintains systems to ensure efficiency and safety, from fire and gas detection to life safety equipment. Our solutions mitigate risk, enhance management capabilities, and utilize state-of-the-art technology. We deliver reliable safety systems tailored to our clients' specific needs, ensuring optimal performance and peace of mind with our experienced team dedicated to high-quality service. We have developed a business culture based on four fundamentals:

- Integrity
- Innovation
- Team Work
- Customer Satisfaction

## FIT OUT MANAGEMENT

Our analysis and guidelines make sure tenants get the maximums of the core and shell facilities without compromising the owner's benefits and standards and smooth this advanced service help new tenants start up their design based on an accurate assessment of their space and their share Gn-Build services using of the MEP core& shell services needs. Smart Group Intl. facility management consultants revise the new tenant's design and confirm its compliance with the fit-out guidelines and existing core shell systems capacities and standards.

## DESIGN BUILT SOLUTIONS

We design the optimum solution to hook up your new systems over the existing full package of MEP(Mechanical, Electrical, and Power) infrastructure guaranteeing excellent operation and smooth maintenance. Smart Group International-TFM team executes Design-Build Services using economic and accurate methodologies which satisfy tenant needs while eliminating any liability to affect existing building our analysis and guidelines make sure tenants get the maximum of the core and shell facilities without compromising the owner's benefit and standards

# COMPANY SERVICES

Smart, Installs, integrates and maintains the systems that keep efficient from building automation and management

Solutions that help mitigate risk. engineering base of design installation maintenance and operation

To make better facility decisions, process control and Increase the ROI of building

Design, installation and optimization of multiple systems we can keep.

Customers across the globe to identify challenges and provide.

## FIRE FIGHTING SYSTEM

Fire fighting protection system most important for life safety, building assignment group secured all types of fire system and serve many option for that also provide design basset for protected area for fire fighting and fire alarm system and gas detection system process control for all site also provide maintenance and operation for installation our service is meet our customer satisfaction

## FIRE ALARM SYSTEM

When you're using on advanced fire safety solution that is reliable, flexible and survivable, peace of mind is the greatest benefit. Protect your people and property with our market-leading systems. They can be tailored for a wide range of buildings, applications and markets, and our technology and comprehensive maintenance can make your job easier by improving costs and saving time.

## FIRE FIGHTING & CLEAN AGENT SYSTEM

We Provide advanced fire fighting system, design and installation

### Water system

- Sprinkler system
- Pump system
- Deluge valve system
- Valves

### Foam system

- Foam Bladder tank
- Foam pump skid
- Foam concentrate

Foam Tank

59

## Clean Agent & Gas System

- FM200 System
- NOVEC System
- Enirgen System
- CO2 System

## Fire Alarm System

- Gas Detection System
- Gas Analyzer
- Fire Alarm System

## Engineering-based design for fire fighting and fire alarm and gas detection system

Engineering-based design has transformed the field of firefighting, introducing advanced technologies and innovative solutions that improve fire detection, suppression, and prevention. These advancements not only enhance the safety and effectiveness of firefighting operations but also contribute to better protection for lives and property. As technology continues to evolve, the integration of engineering principles will remain pivotal in developing next-generation firefighting solutions.

Smart group has qualified team work for design base for different types of projects.
